

পশ্চিমবঙ্গ সরকার

# CONTEXT

The Government of West Bengal has made huge investment in the Social Service, Agriculture & Allied Activities and Physical Infrastructure Sectors during the last decade.

## Analysis of Government of West Bengal expenditure (in ₹ Cr.)

- 559% ↑ Social Service Sector
- 136% ↑ Physical Infrastructure Sector
- 490% ↑ Agriculture & Allied Activities Sector

To complement the huge investment as above, Paray Samadhan has been launched to address neighborhood needs and gaps in infrastructure, trained manpower and supply of services. The objective is to create last mile infrastructure and optimally utilize existing infrastructure and improve the efficiency of service facilities. It is nearly impossible to identify such schemes without community participation.

Accordingly, these schemes were identified through Duare Sarkar camps and state grievance portal. In total 10180 schemes have been taken up under the campaign.

## SECTORS ADDRESSED

Infrastructure related issues such as road repairs, installation of street lights etc.

Manpower related issues such as deployment of doctors, appointment of conservancy staff etc.

Supply & Services related issues such as installation of garbage bins, availability of drinking water etc.

# WORK TAKEN-UP

10,180 different community level issues have been identified which can be broadly sub-divided into the following categories:

	COMPLETED 	ONGOING 	RETENDER 
INFRASTRUCTURE 	1655	6415	345
MANPOWER 	518	--	--
SUPPLY 	653	594	--

## MISSION MODE APPROACH

Following strategy has been adopted in Paray Samadhan:

### 1. Identification of Issues in a Participatory Manner

Community level needs were collected at grassroot levels including the Duare Sarkar Camps.

### 2. Field Verification and Feasibility Analysis

After need identification, a feasibility and financial viability study was conducted through field visit to design the solution.

### 3. Monitoring and Execution

A High-Level Task Force was set up to implement the government program by coordinating and monitoring the activities of District Magistrates (DM), Sub-Divisional Officers (SDO), Block Development Officers (BDO) and other Department officials for effective execution.

The Finance Department created an enabling condition by enhancing vetting powers of field engineers, relaxed tender timelines and enhanced delegated financial sanction limits of departments.

### 4. Transparency

A thread of seamless transparency runs through each stage of implementation. All the completed and ongoing schemes have been published on [www.wb.gov.in](http://www.wb.gov.in). In addition, onsite wall writings for all schemes has been done and geo-tagged photographs have been uploaded.

## 5. Inter-Departmental Synergies

This unique initiative by the Government of West Bengal brought all the departments together and a synergy was witnessed which enabled fast-track execution and helped in improving the last mile delivery of services.

## 6. An IT-enabled Efficient Project Management System

The project management system in Paray Samadhan comprises an online portal with provision to upload geo-tagged photographs and videos and an executive dashboard. Real time data entry into the portal has helped in tracking the projects spread across the wide geographical area of the state.

### ONLINE PORTAL

Robust back-end and front-end digital infrastructure for data entry and for coordination with district administrations

### EXECUTIVE DASHBOARD

Dashboard for impact assessment is available for quick decision making and mid term corrections

### GEO-TAGGED PICTURES AND VIDEOS

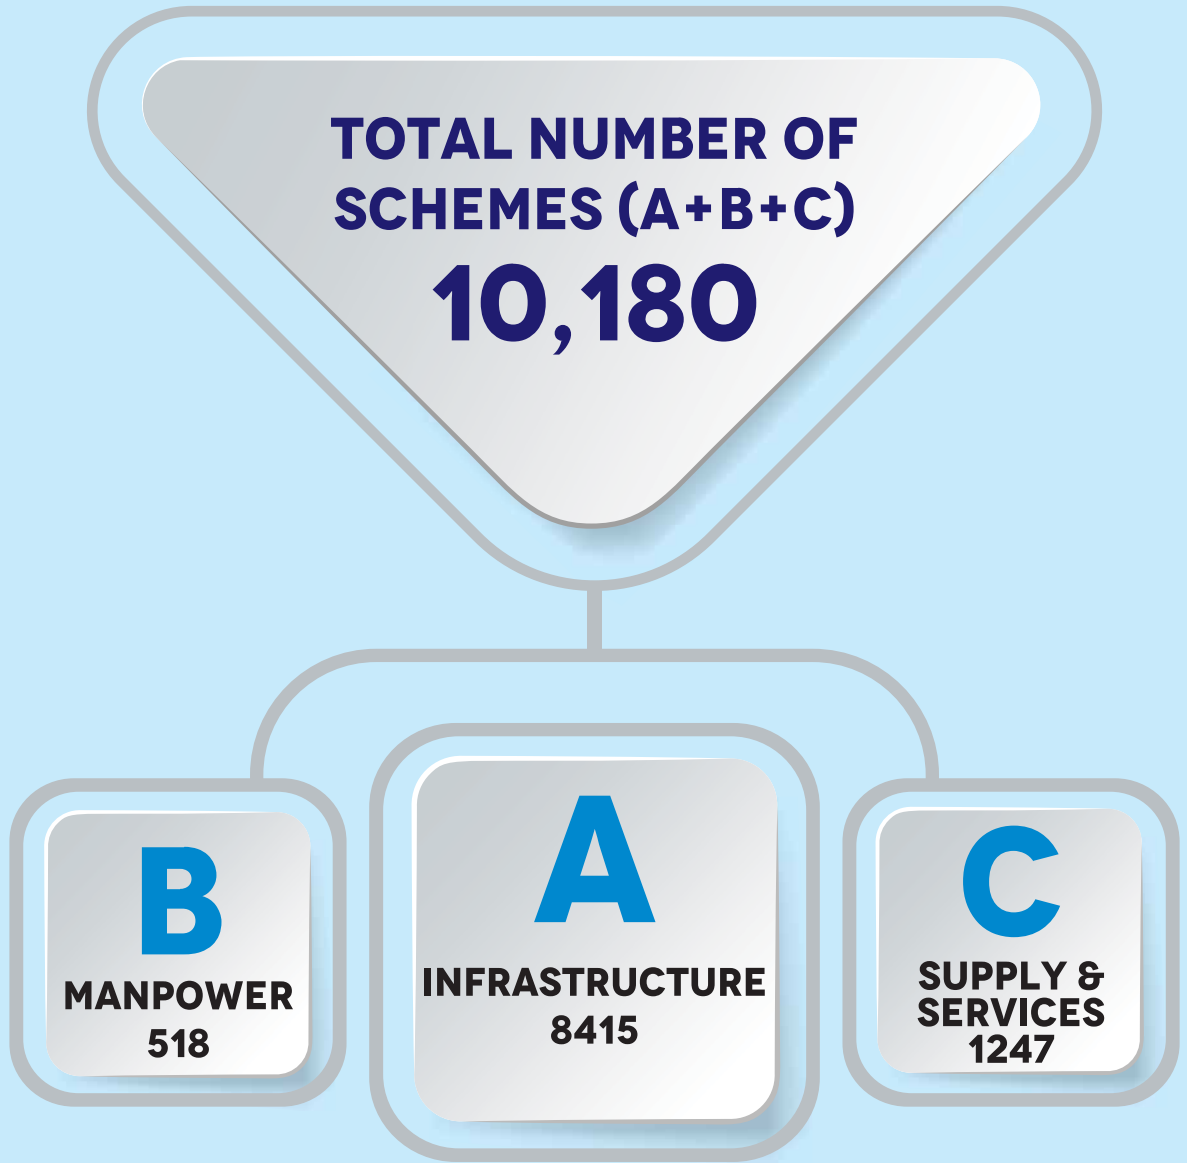

Collection of geo-tagged photos and videos to maintain process transparency

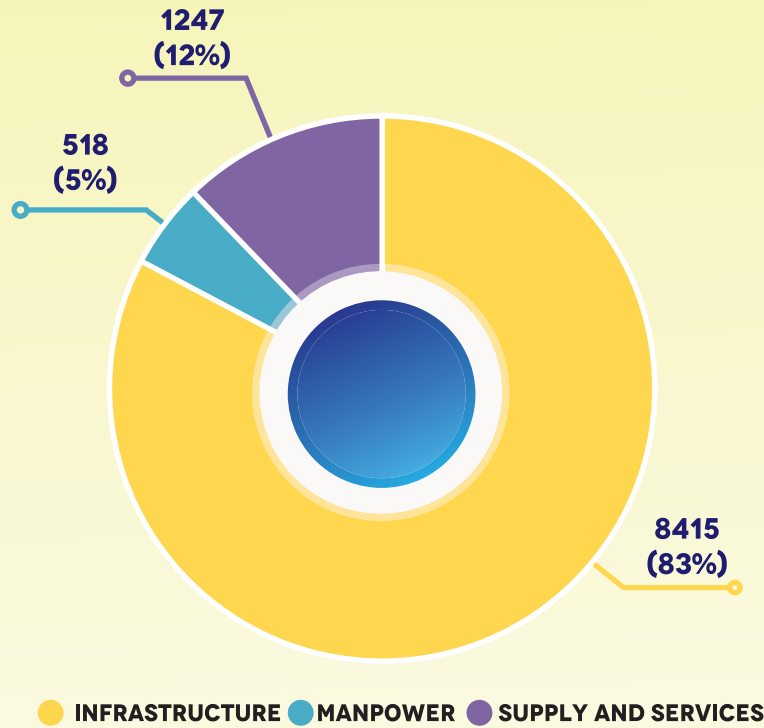

### MANAGEMENT INFORMATION SYSTEM

Real-time data entry and progress across districts is captured through an MIS

## LEARNING OUTCOME

### 1. Area Approach in Planning

Paray Samadhan has paved the way for clustering together small schemes to solve major problems in a larger geographical area.

### 2. Validity

The process of Paray Samadhaan is one-of-a-kind that sets a benchmark for resolving similar community level needs in similar context.

### 3. Voice to People

Paray Samadhan has given people the agency to have a say in improvement of their neighbourhood.

### 4. Holistic Approach

Paray Samadhan has adopted an approach wherein the facilitation has been top-down while micro-planning is bottom-up.

### 5. Decentralisation in Decision Making

Enhancing the technical vetting power of local engineering set-up and providing untied funds to districts has helped in resolving local needs quickly.

### 6. Value for Money

Paray Samadhan is a unique experiment which has proven that small budget schemes may create a big impact if community needs are properly identified and addressed.

# ALIPURDUAR

**Block :** Kalchini

**GP :** Garopara

**UID :** APD127

**Scheme :** Open stage for Gaswpur Line's football ground.

**Category :** Infrastracuture

**People Benefitted :** 1000 (approx)

**Tentative Expenditure**

**Description :** A demand for an Open Stage at Gawsipur Line Football Ground was raised by the people of Garopara G.P. The scheme was taken up and completed under Paray Samadhan to promote cultural activities along with the game of Football bringing smiles to thousands.

**Block :** Alipurduar I

**GP :** Vivekananda I

**UID :** APD025

**Scheme :** Need for a hand pump or PHE pipeline for drinking water in the GP

**Category :** Infrastracuture

**People Benefitted :** 5000 (approx)

**Expenditure :** Rs.3,07,226/-

**Description :** There was a long standing demand for drinking water from the inhabitants of Vivekananda I GP. People in the village used to walk for 1.5 km for bringing water. The demand has been taken up and met under Paray Samadhan. Now the drinking water issue is resolved.

**Block :** Alipurduar I

**GP :** Vivekananda I

**UID :** APD023

**Scheme :** Guard wall at Nonai river (Adopta Sutradhar's house to Dilip Sarakar's house - 200m)

**Category :** Infrastracuture

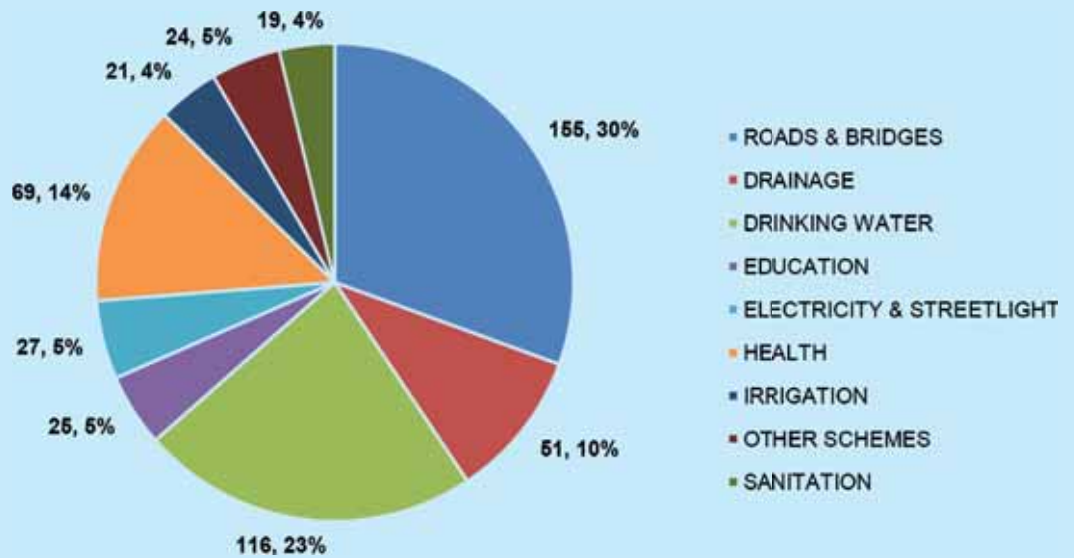

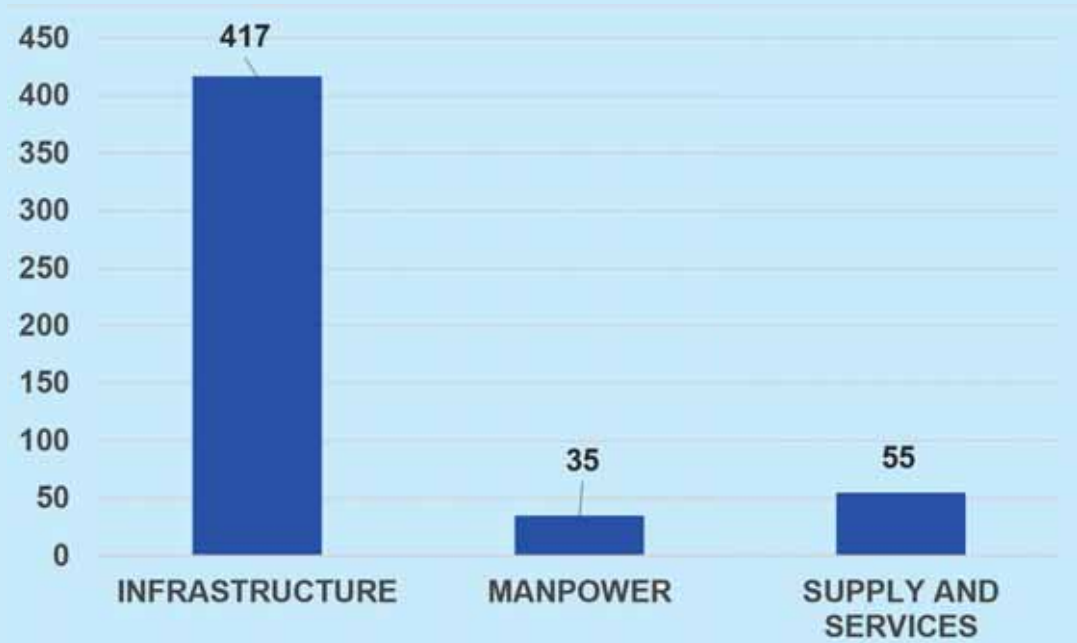

**People Benefitted :** 3000 (approx)

**Expenditure :** Rs. 7,03,000/-

**Description :** It has been a long standing demand of the local inhabitants who have been encountering the problem of inundation of Nonai River during Monsoons every year. Immediately after receiving the grievance, the Irrigation Department took up the work and completed under Paray Samadhan within a very short span of time securing the banks of this part of the Nonai river, thereby ensuring lives and livelihood of atleast 3000 inhabitants.

# BANKURA

\* All units are number of issues addressed

# BANKURA

**Municipality :** Sonamukhi

**Scheme :** A guard wall at Nimurgore ward no. 11 (BNK464)

**Category :** Infrastructure (Guard wall)

**People Benefitted :** 800 (approx.)

**Tentative Expenditure :** Rs 3,50,000 approx

**Description :** The area adjoining a small rivulet was always under constant threat of getting submerged during rainy season and also once the level of water rises in the rivulet, the embankments are not strong enough to hold on and might just bring the houses and other constructions at the bank down. This guard wall will now safeguard the habitation and constructions near the bank.

**Block :** Kotulpur

**Scheme :** Installation of tube well at Masinapur Village under Sihar GP (UID: BNK285)

**Category :** Infrastructure (Solar Light)

**People Benefitted :** 500 (approx.)

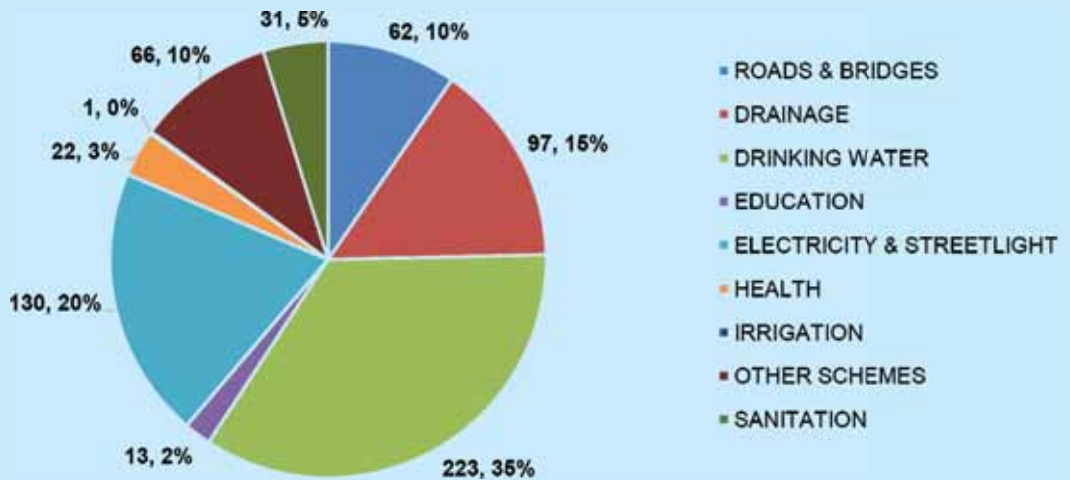

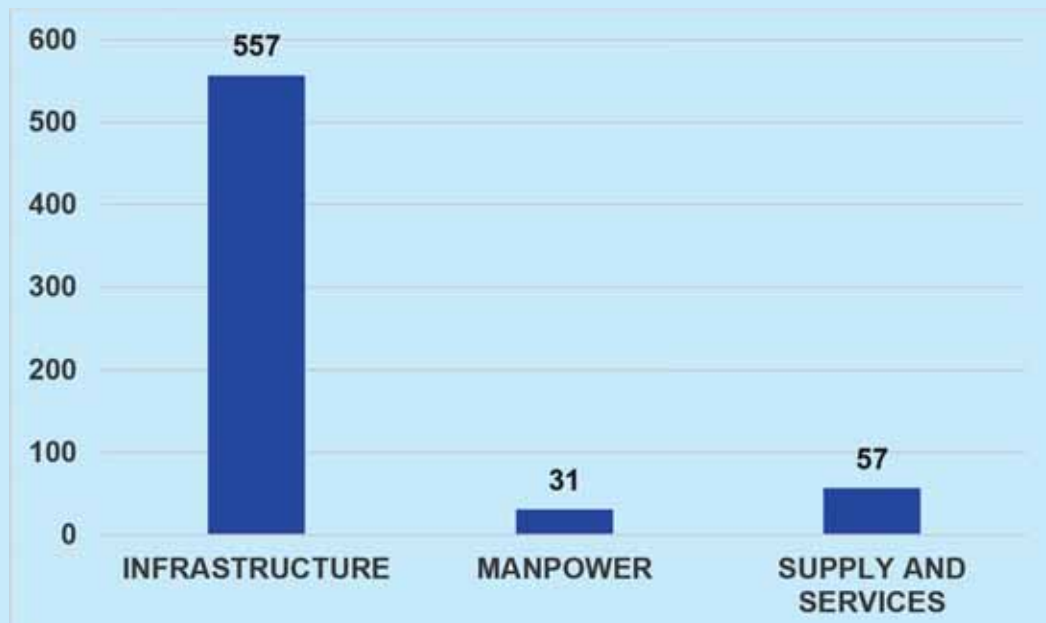

**Tentative Expenditure :** Rs 1,50,000

**Description :** Inhabitants of Masinapur Village under Sihar GP requested for a tube well. Villagers badly needed deep tube-well as there were no drinking water facilities in the village. They had to travel long distance for bringing water for their daily needs. The block administration has taken up and met the demand under Paray Samadhan.

# BIRBHUM

\* All units are number of issues addressed

# BIRBHUM

**Block :** Mayureswar-II Development Block

**Scheme :** Construction of Road made from Abusam's House to Shanti Konai's House (BIR49A)

**Category :** Infrastructure (Road)

**Population benefited :** 1000

**Estimated Expenditure :** Rs. 2,48,098.00

**Description :** There was a long standing demand for a pucca road by the villagers as the earlier road was unusable in rainy seasons. The work has been taken up and completed under Paray Samadhan. The villagers conveyed their satisfaction over the fact that Government has responded to their grievances by making this concrete all-weather road in due time.

**Block :** Dubrajpur Development Block

**Scheme :** Construction of Tube Well at MorakChandi Tala under Parulia GramPanchayat,(BIR75A)

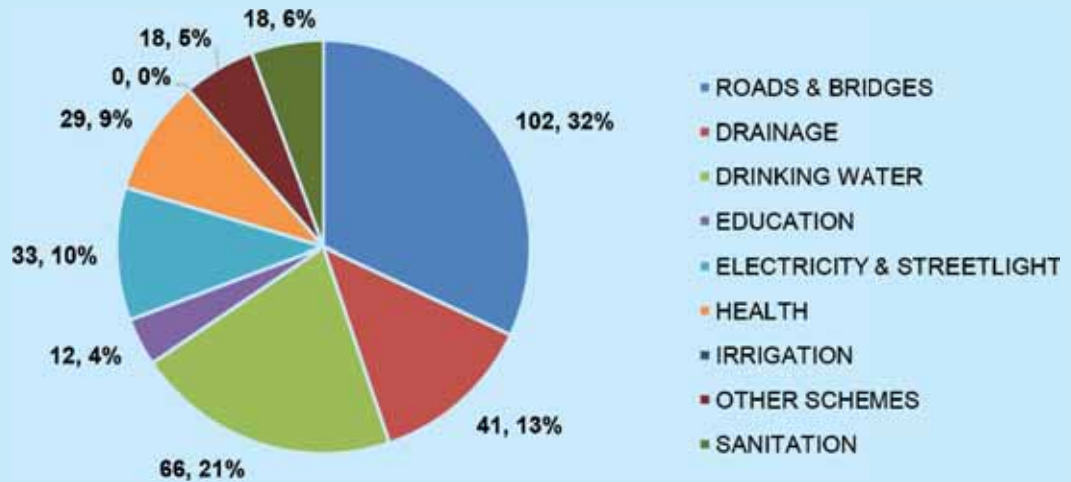

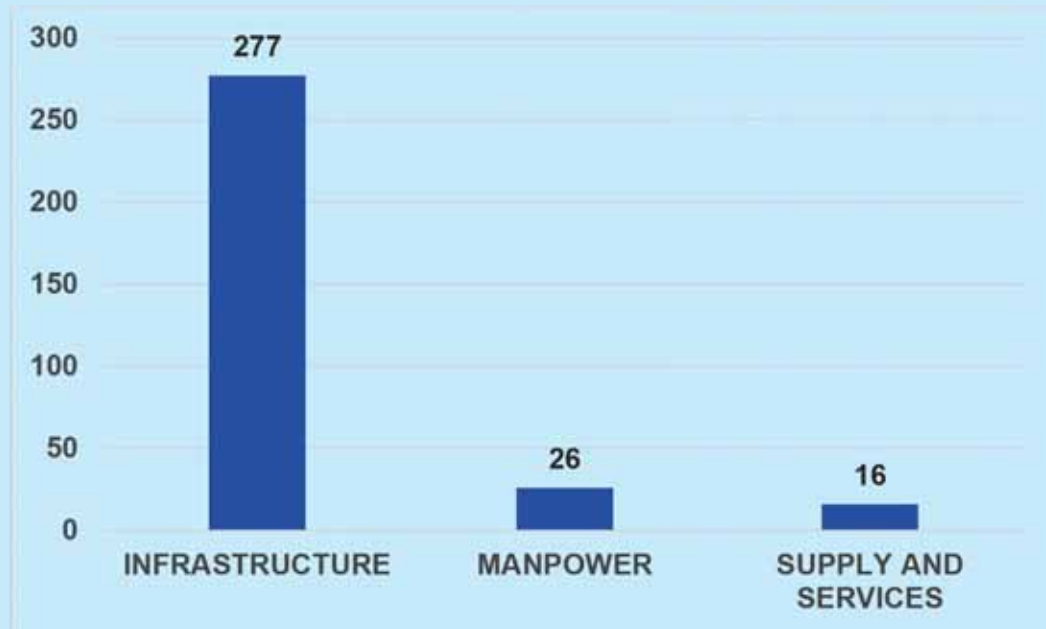

**Population benefited :** 500

**Estimated Expenditure :** Rs. 3,20,000

**Description :** Parulia Village under Dubrajpur Panchayat Samity is a drought prone area and around 500 people are living there. Villagers had been demanding an additional Tube Well for a long time for drinking water. Under ParaySamadhan programme it has been taken up.

# COOCHBEHAR

\* All units are number of issues addressed

# COOCHBEHAR

**Block :** Cooch Behar-1 Block

**Scheme :** Construction of drainage in front of the house of Chak Maya (CBR001).

**Category :** Infrastructure (Drainage)

**People Benefitted :** 3000 (approx.)

**Tentative Expenditure :** Rs 2,00,000 approx

**Description :** People of Avasi Colony under Patchhara G.P., Cooch Behar-I Block had a long term demand for renovation of Pucca Drain at Avasi Colony due to water logging problem on their cultivated land, which was adversely affecting cultivation and had also become a nuisance for public health. The scheme was successfully completed as per guidelines of Paray Samadhan. This project has significantly improved the quality of life of people who live in this neighborhood.

**Block :** Cooch Behar-1 Block

**Scheme :** Construction of 150 meter boundary wall of the graveyard (CBR242).

**Category :** Infrastructure (Boundary wall)

**People Benefitted :** 2500 (approx.)

**Tentative Expenditure :** Rs 5,00,000 approx

**Description :** A safe burial place was in long demand from the people living within the municipal area. The open burial site had become a dumping ground for the municipal waste and an ideal place of illegal activities after the fall of evening. The new boundary wall will make the site a safe place for the burial and other last rite rituals.

**Block :** Sagar

**Scheme :** Construction of a Tube well at Sumatinagar near house of Animesh Bera (SOP11A)

**Category :** Infrastructure (Drinking water)

**Population benefited :** 220

**Description :** There was a long standing demand for a tube well from the people of Sumatinagar as the area was facing scarcity of drinking water. Construction of tube well has been taken up and completed under Paray Samadhan. It is going to especially help women who used to fetch water from far off distance.

**Block :** Sonarpur Development Block.

**Scheme :** Construction of Masonry Drain from H/O-DasuGiri towards H/O-Ashoke Mallick at Chandpur Village (SOP286)

**Category :** Infrastructure (Drainage)

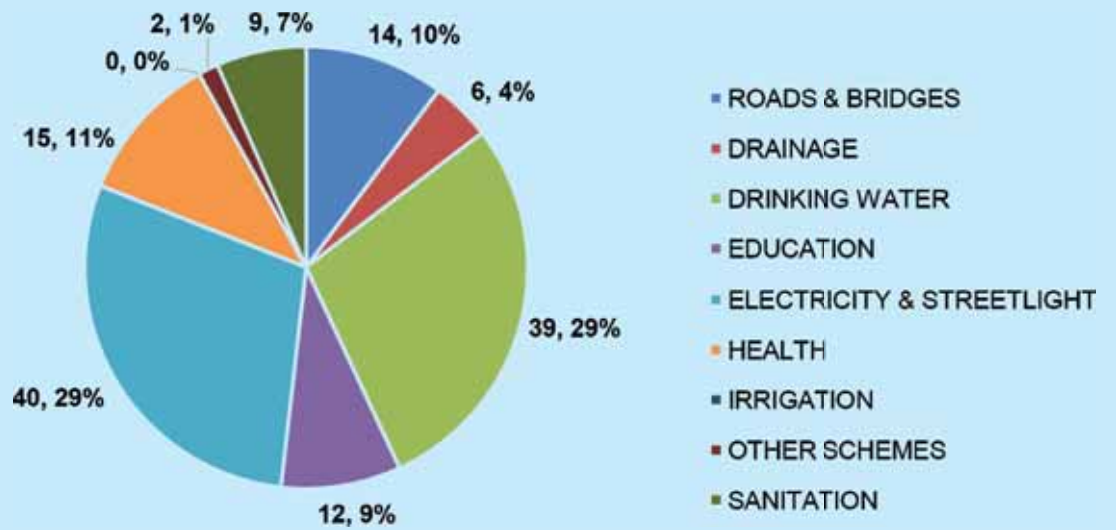

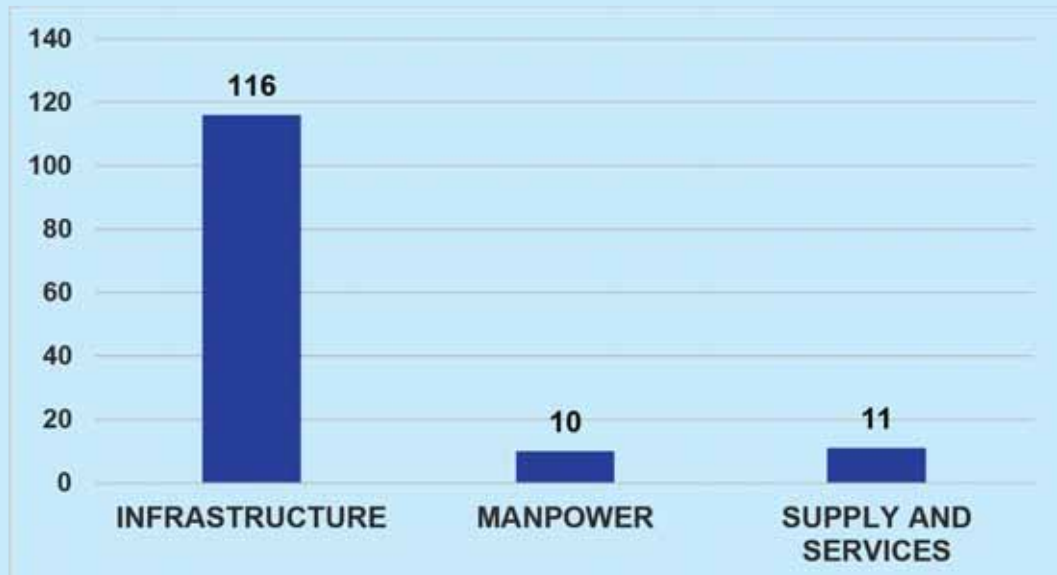

**Population benefited :** 3000

**Estimated Expenditure :** Rs.350000

**Description :** The area was getting water-logged with during monsoon. Vector borne diseases were also prevalent in this area. The scheme was taken up and completed under Paray Samadhan and now the water logging issue has been resolved.

# DAKSHIN DINAJPUR

\* All units are number of issues addressed

# DAKSHIN DINAJPUR

**Block :** Tapan Block

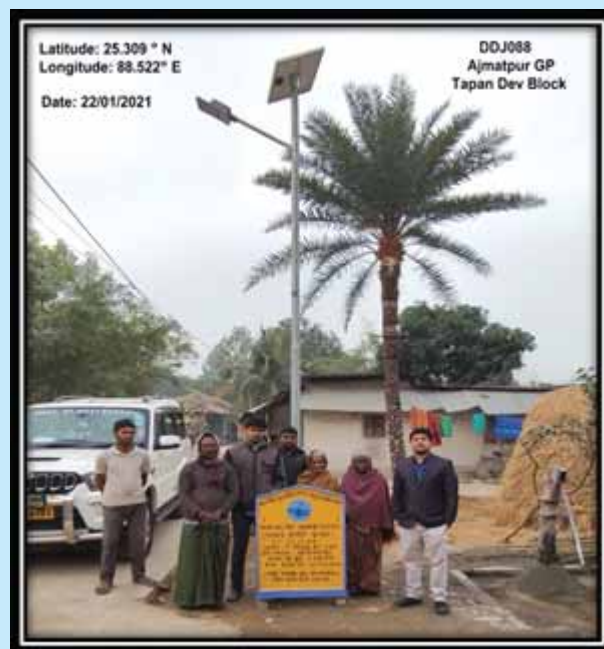

**Scheme :** Street lights required at Ajmatpur Mahalipara.

**Category :** Infrastructure (Streetlight)

**People Benefitted :** 1000 (approx.)

**Tentative Expenditure :** Rs. 35,000 approx

**Description :** Mahalipara is a ST-dominated para in Ajmatpur Gram Panchayat, Tapan Block. The villagers wanted solar light to be installed there, and had applied accordingly at Paray Samadhan camp. After installation of solar street light, the local people can walk safely in the later hours of evening stretching to midnight and beyond. To quote Niren Murmu, a local villager, "We are indebted to the state govt. for fulfilling our long-standing demand."

**Block :** Harirampur Block

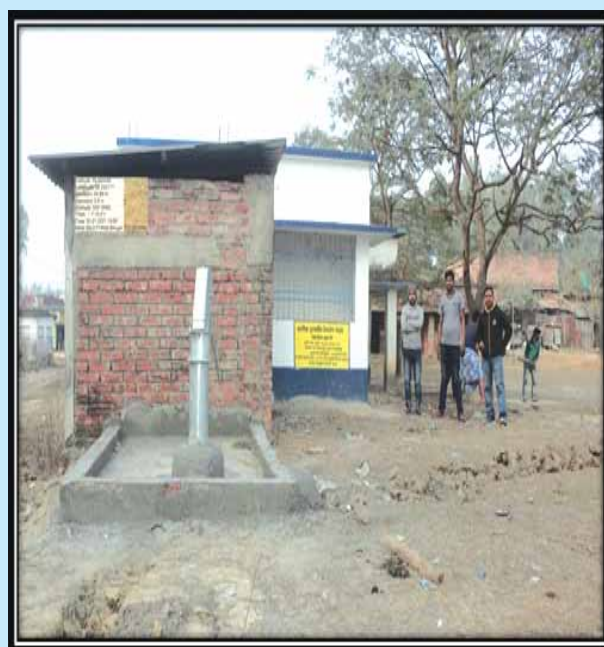

**Scheme :** Washroom and drinking water facility at Cheuti Maheshpur Free Primary School (DDJ171).

**Category :** Infrastructure (Drinking water and Toilet)

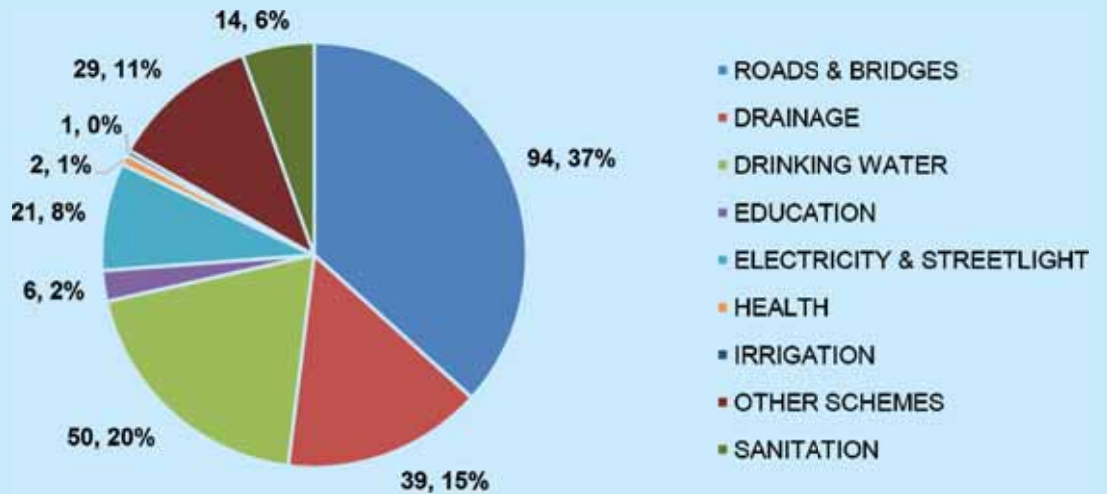

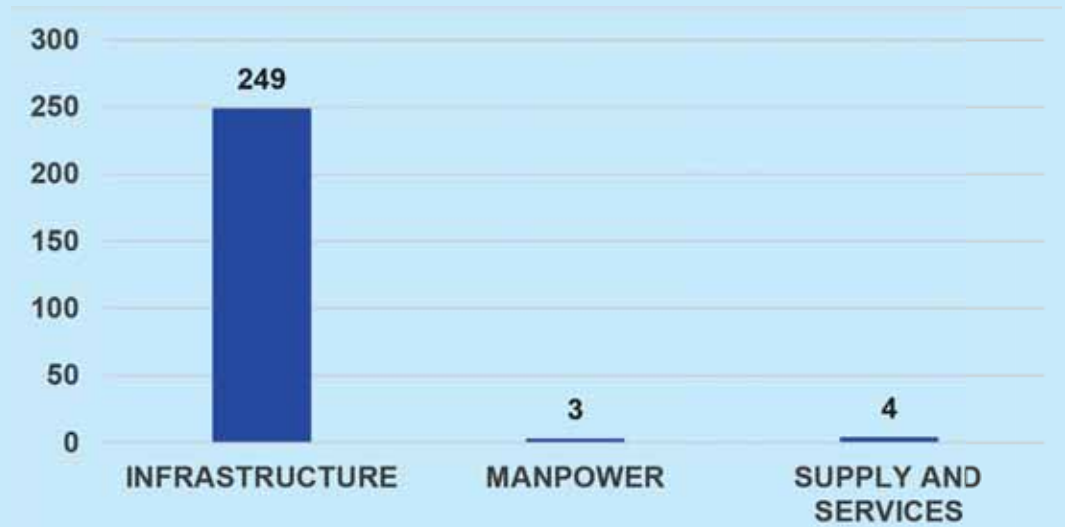

**People Benefitted :** 500 (approx.)

**Tentative Expenditure :** Rs 100,000 approx

**Description :** The students of Cheuti Maheshpur F.P. School in Bairhatta GP, Harirampur Block were facing problem due to non-availability of safe drinking water and wash room. A new Tube Well has been installed by the Harirampur Block administration under Paray Samadhan Programme. A local resident, Mojjammel Haque has expressed his happiness and said that this will help increasing attendance of students.

# DARJEELING

\* All units are number of issues addressed

# DARJEELING

**Block :** Rangli-Rangliot

**Scheme :** Construction of Two Units Toilet at Health Centre, Takling Basti (DLG203)

**Category :** Infrastructure (Sanitation)

**People Benefitted :** 700 (approx.)

**Tentative Expenditure :** Rs 2,00,000

**Description:** Shri Milan Lepcha, who requested for a toilet facility at Takling Health Centre under Paray Samadhan, is very pleased to see that patients coming to this health centre from nearby 5 villages, no longer need to relieve themselves out in the open as a new two unit toilet facility has been constructed.

**Block :** Rangli-Rangliot

**Scheme :** NBSTC Bus service from Teesta Valley to Siliguri & from Teesta Valley to Darjeeling (DLG196)

**Category :** Supply and Services

**People Benefitted :** 800 (approx.)

**Description :** After the starting of bus service from Teesta Valley to Siliguri and Darjeeling under Paray Samadhan, the residents of Teesta Valley have heaved a sigh of relief as now they will be able to travel to Siliguri and Darjeeling at a much cheaper rate than the private bus/taxi fares. This will boost employment and local business in the area. Women also feel safer in a government bus.

**Block :** Sukhiapokhri

**Scheme :** Repair of Hanging Bridge at Samripani TE, Ward No X, Pokhriabong II (DLG16A)

**Category :** Infrastructure (Bridge Repair)

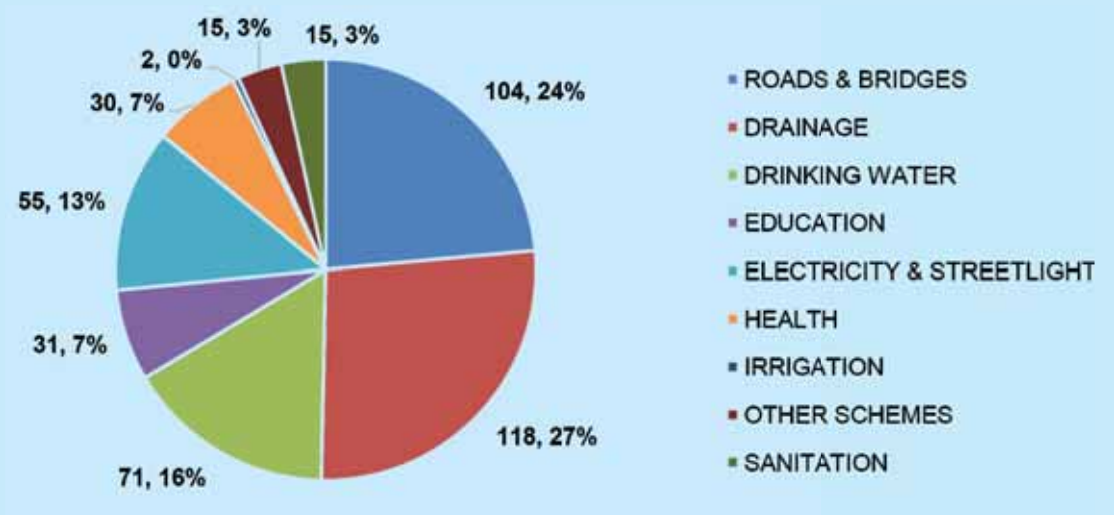

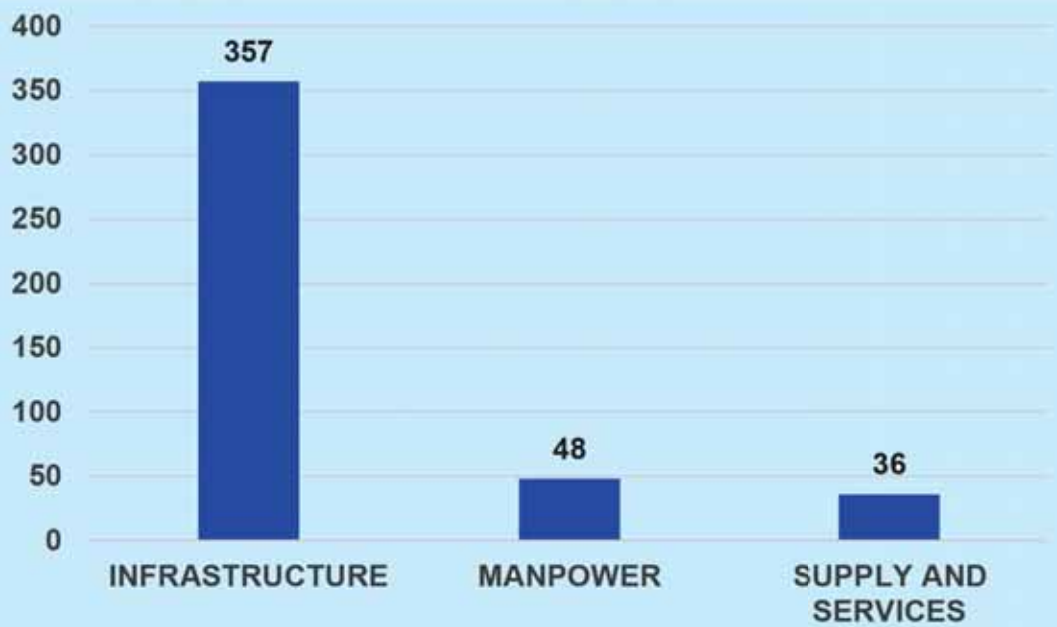

**People Benefitted :** 500 (approx.)

**Tentative Expenditure :** Rs 4,62,000

**Description :** The Hanging Bridge being a shorter route for the local people to connect to Toongsoong Tea Estate, BDO Office and Darjeeling Bazar, was hardly used due to its poor and dilapidated condition. Children in order to access their school had to either walk dangerously on this bridge or take a longer route. Small businesses were also getting hampered. The bridge has now been repaired and local people are very pleased.

# HOOGHLY

# HOOGHLY

**Municipality :** Hooghly

**Scheme :** Water supply connection for local people. (HGY388).

**Category :** Infrastructure (Drinking water)

**People Benefitted :** 400 (approx.)

**Tentative Expenditure :** Rs 50,000 approx

**Description :** Safe drinking water was an issue in the locality which was resolved with this scheme. Until now, the residents were forced to travel a long distance to fetch drinking water and this has led to many issues. All of them stand resolved now.

**Municipality :** Hooghly

**Scheme :** Water supply connection for local people. (HGY247).

**Category :** Infrastructure (Drinking water)

**People Benefitted :** 400 (approx.)

**Tentative Expenditure :** Rs 50,000 approx

**Description :** Safe drinking water has been a persistent issue in the locality which was finally resolved with this scheme. Until now, the residents were forced to travel a long distance to fetch drinking water and this has led to many issues. All of them stand resolved now.

**Municipality :** Hooghly

**Scheme :** Construction of Drain for Urban Slam Area. (HGY270).

**Category :** Infrastructure (Drainage)

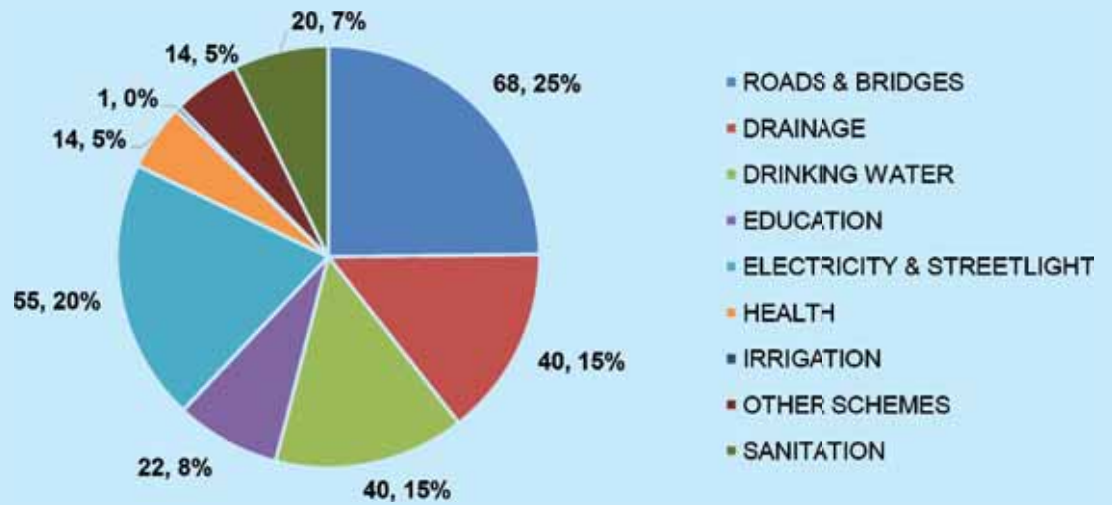

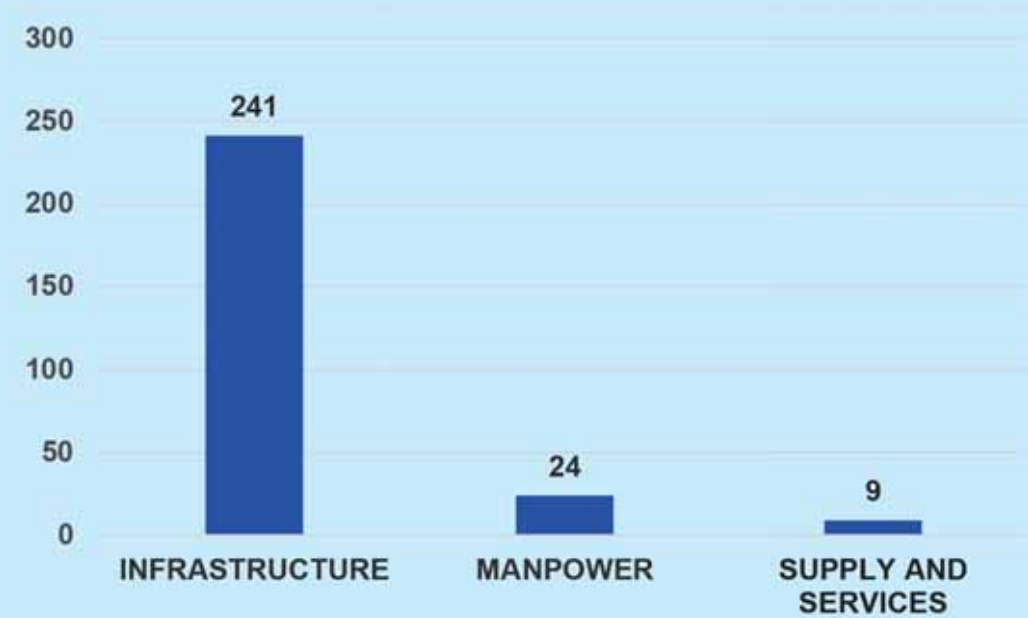

**People Benefitted :** 500 (approx.)

**Tentative Expenditure :** Rs 100,000 approx

**Description :** Sanitation and cleanliness has been a very big issue in this locality. It has also created health related issues. With construction of the drainage system here, it would be clean now, leading to better quality of life.

# HOWRAH

\* All units are number of issues addressed

# HOWRAH

**Block:** Amta-I

**Scheme :** Installation of High Mast Light near Kajiberia Masjid in Kajiberia booth of Bhandargacha village. (HWH030)

**Category :** Infrastructure (Lighting)

**People Benefitted :** 600 (approx.)

**Tentative Expenditure :** Rs 1,60,000

**Description :** A high-mast street light has been installed at this place, which is always crowded as it is a popular thoroughfare and market area. Before the installation, the area was prone to accidents and people used to feel difficulty in accessing the area. Now, the local market business in the area is flourishing as customers throng here even in the night.

**Block:** Amta-I

**Scheme :** Meeting the demand of an ambulance for the entire Bhandargacha Gram Panchayat. (HWH031)

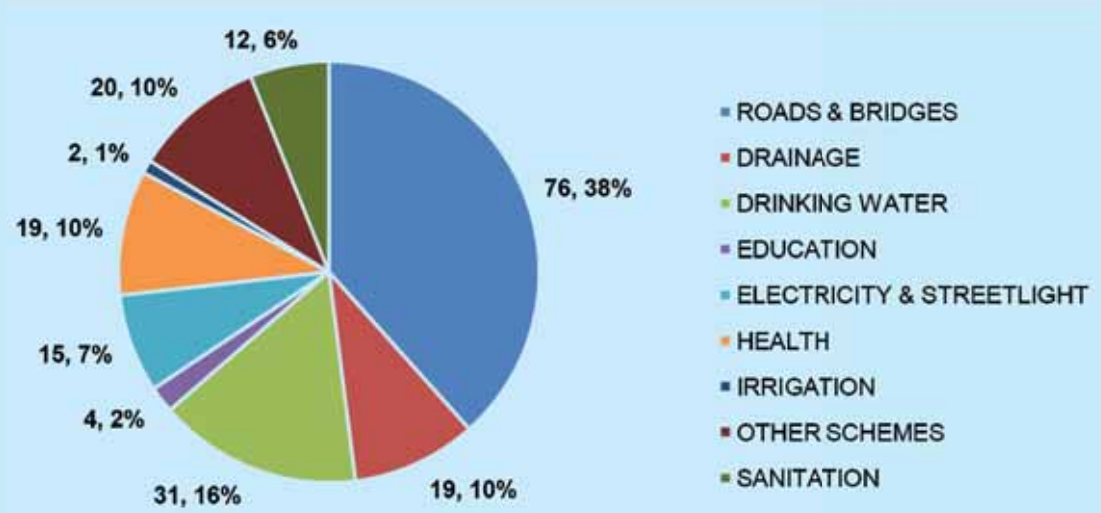

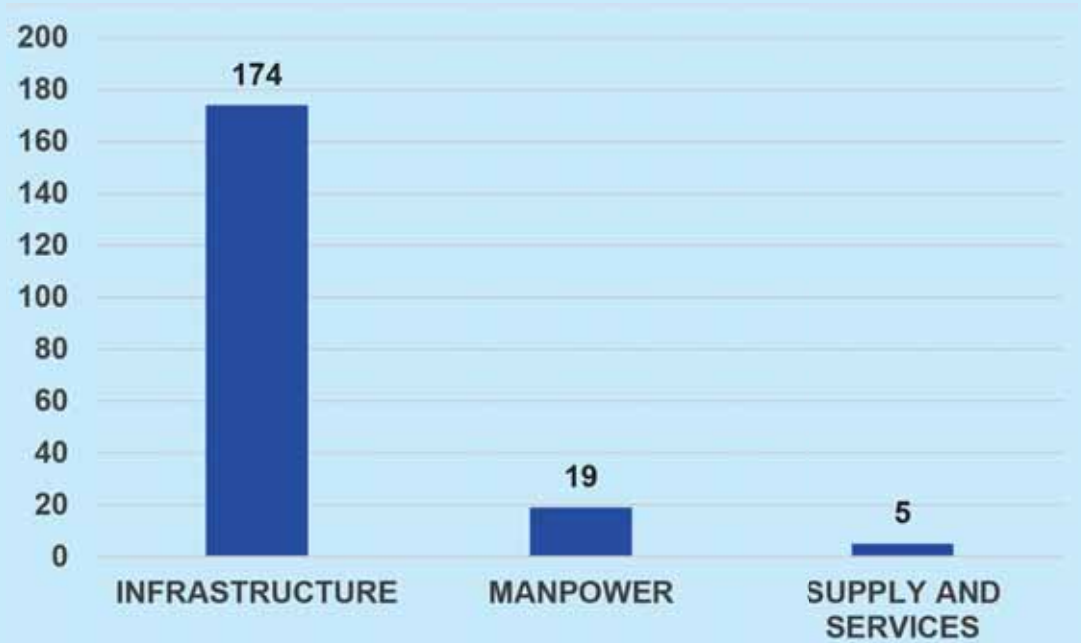

**Category :** Supply & Services (Ambulance)

**People Benefitted :** 5000 (approx.)

**Description :** The operational health centre at Bhandargacha Gram Panchayat was inaccessible to patients-in-need as there was no ambulance service available in the area. Patients who were more critical and needed to access Amta Rural Hospital (4kms away from the GP) used to depend on private mode of transport which was highly unpredictable thereby risking patient's well-being. The out of pocket expenditure was also very high (to the tune of Rs 500) as these poor patients lacked negotiating power. An ambulance has been tagged to this area by the local authorities and people of the area are very pleased.

**Block :** Debra

**Scheme :** Repairing of road from 3<sup>rd</sup> canal para to gopal maity house(PAM17A)

**Category :** Infrastructure (Road)

**Population benefited :** 2000

**Estimated expenditure :** 292918

**Description :** The earthen road used to create a huge transportation problem during monsoon season and medical emergencies. The inhabitants demanded construction of a concrete road. The demand has been taken up and met under Paray Samadhan. The local residents are very happy seeing the prompt action of government.

**Block :** Keshiary block

**Scheme :** Installation of High Mast light (PAM264)

**Category :** Infrastructure (Street light)

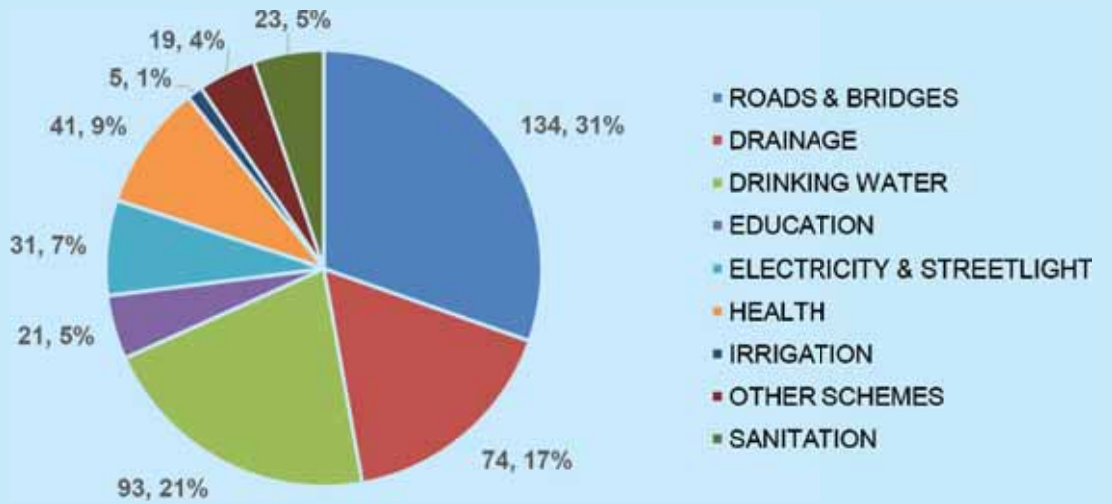

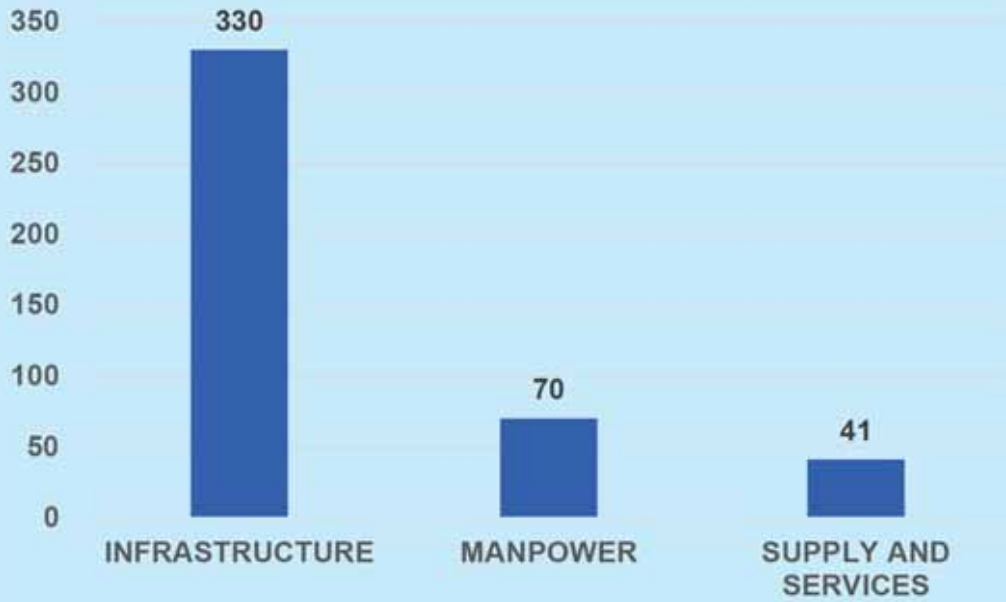

**Population benefited :** 5000

**Estimated expenditure :** Rs. 1,58,000

**Description :** Hatigeria Bus Stop is an important location of Khajra GP of Keshiary Block. This location is on the Kharagpur-Keshiary-Nayagram Road & connects with Rohini of Jhargram District. This is a market place also. There was no street light at this junction. The entire area plunged into darkness at dusk. After receiving complaint, Block administration took urgent steps for implementation of installation of High Mast Light at this place under Paray Samadhan.

**Block :** Ketugram-I

**Scheme :** Construction of Drainage(PBD272)

**Category :** Infrastructure (Drainage)

**People Benefitted :** 1000 (approx.)

**Tentative Expenditure :** Rs 3,03000

**Description :** There was a long pending demand of the locals regarding drainage congestion of their village road. During monsoon, all rain water accumulated over the pukka road and caused water logging. There is only one way to drain out this stagnant water, that is through an irrigation canal which is passing just beside the village. After necessary desiltation work completed on 28.01.2021 under Paray Samadhan, the problem is successfully solved.
